

Put yourself in total control of your business.

Standard on Wascomat's SU series washers, Compass Control puts you in total control of your operations and profitability! Easily customize and program your washers for greater flexibility, higher efficiency and lower costs. Compass Control gives you the ability to control important functions such as water levels, wash times and number of rinses on-site. Customers love the Heavy Soil and Extra Rinse options which can be set for a higher price resulting in an increase in store revenue. Special low financing available to qualified customers. And that's not all...

Enter our contest below and you could be the lucky winner of a new Wascomat Compass SU620cc Washer!
